Transforming lives. That's our vision.

National Quality & Risk Manager

We searching for a senior quality, improvement and risk manager to join our growing organisation!

At Vision Eye Institute (VEI), we are Australia's leading provider of ophthalmic services, with a mission to transform lives through a strong commitment to the delivery of high-quality outcomes for patients. We take pride in our positive workplace culture; strong focus on teamwork, comprehensive internal training and continuing professional development opportunities.

The National Quality and Risk Manager works in collaboration with the Executive Leadership Team (ELT), Medical Director, Practice Managers and Directors of Nursing (DoNs), Doctors and Quality Managers to lead the quality and risk management program for Vision Eye Institute (VEI).

The key function of this position is to the manage activities required for the implementation, ongoing improvement and maintenance of quality and risk systems. These activities are designed to ensure that VEI maintains accreditation/certification status and to lead key strategic quality improvement and risk mitigation initiatives across the organisation. The National Quality and Risk Manager reports directly to the National Director of Nursing.

Our ideal candidate will have significant experience in leading a quality improvement program within a multi-site organization and can demonstrate a sound knowledge of quality management principles and practices specifically ISO 9001:2008. You'll also have sound knowledge of the National Safety and Quality Healthcare Service Standards, and highly developed communication and leadership skills with the ability to work collaboratively with senior executive, clinical and non-clinical staff.
