

Transforming lives. That's our vision.

# SPECIALIST EYE CARE FOR PATIENTS

Vision Eye Institute Bondi Junction's team of highly regarded doctors provides specialist care across a wide range of ophthalmic conditions. In addition to general eye care, we also treat retinal conditions and glaucoma, and provide access to some of Australia's most experienced laser eye and cataract surgeons.

Access to state-of-the-art technology allows us to offer patients the latest ophthalmic procedures and treatments – e.g. SMILE® pro laser eye surgery, laser cataract surgery, and minimally invasive glaucoma surgery such as the iStent.

#### **Fully accredited**

Vision Eye Institute is committed to continuously monitoring and improving the quality of our service. Our practice has established robust quality management systems and processes to minimise patient risk and improve patient satisfaction. This includes our *In Safe Hands* Program, which incorporates all the practical measures we take day-to-day, both individually and as a team, to ensure the safety of our patients and staff – from hand hygiene, protective equipment and cleaning, to handling patient confidentiality.

Please let our reception staff know if you wish to provide feedback about our service – we welcome and appreciate your input.

SMILE® pro is a registered trademark of Carl Zeiss Meditec.

All medical and surgical procedures have potential complications. Check with your ophthalmologist before proceeding.
