## Dr David Handley

MBBS FRANZCO

Dr David Handley is a highly experienced general ophthalmologist. He has interests in pterygia, corneal conditions, glaucoma management, macular degeneration and diabetic macular oedema.

### BACKGROUND

Dr Handley obtained his Bachelor of Medicine and Surgery from the University of Adelaide, and then completed his ophthalmology training at the Royal Adelaide Hospital and Flinders Medical Centre.

His longstanding passion for eye health has driven him to collaborate in the set-up of eye clinics and day surgeries with the most advanced equipment. This allows thorough assessment of the health of the eyes and early detection of eye disease, as well as facilitating the most accurate intraocular lens calculation for optimal refractive outcomes and patient care.

Dr Handley's areas of interest include pterygia, corneal conditions, glaucoma management and intravitreal injections for macular degeneration and diabetic macular oedema. In addition, he established ophthalmology clinics in regional South Australia and took great pleasure in working with these communities over many years.
