

OUR DOCTORS

Dr Paul Adler

MBBS(Hons) BOptom FRANZCO

Dr Paul Adler is a highly skilled general ophthalmologist and cataract surgeon, with an additional interest in glaucoma. With over three decades of professional experience, he is dedicated to providing comprehensive eye care services to his patients.

BACKGROUND

Dr Adler obtained a Bachelor of Optometry (BOptom) degree followed by a Bachelor of Medicine and Bachelor of Surgery (MBBS) degree with Honours, both at the University of NSW. He subsequently trained in ophthalmology/surgery at Westmead Hospital and Sydney Eye Hospital.

Dr Adler spent 12 years based in Bathurst NSW, operating at Bathurst Base Hospital, St Vincent's Private Hospital, Lithgow public and private hospitals, Springwood and Mudgee hospitals. He then practised in the Blue Mountains from 2008 to 2024. He is based in Sydney, operating at Katoomba Public Hospital and Somerset Private Hospital, and travels to Brisbane on a fortnightly basis to consult and operate with Vision Eye Institute and RiverCity Private Hospital.

Dr Adler's main interests are cataract and glaucoma, along with teaching. He is a highly experienced cataract surgeon, having performed around 7,000 cataract operations. Currently a Senior Lecturer at the University of Notre Dame, he has taught ophthalmology to medical students for about ten years.

Dr Adler is actively involved in ophthalmic research, having delivered around 25 conference presentations, posters and journal publications. His research has also included the invention of the Adler Wound Gauge for measuring/confirming incision dimensions.

Outside ophthalmology, Dr Adler's interests include travel, bushwalking and photography.
