

# SPECIALIST EYE CARE FOR PATIENTS

Vision Eye Institute Kurralta Park is a purposebuilt clinic located in the Tennyson Centre, close to Adelaide's city centre. We have been providing world-class eye care to South Australian residents since the 1950s.

### Our clinic is equipped with state-of-the-art technology and highly experienced doctors, led by Dr David Handley, Dr Paul Athanasiov and Dr Soo Khai Ng.

Our clinical team members diagnose and treat a wide range of ophthalmic conditions, including cataracts, glaucoma, diabetic eye disease, retinal conditions and corneal disease. For your convenience, treatment may be provided on the same day as your initial appointment. Meanwhile, surgical procedures take place at the Tennyson Centre and Windsor Gardens Day Surgery. Our clinic is accessible to people with limited mobility and those who require mobility aids.

### High-quality care

Vision Eye Institute is committed to continuously monitoring and improving the quality of our service. Our practice has established robust quality management systems and processes to minimise patient risk and improve patient satisfaction. Within our day surgeries, these systems are aligned with the requirements of the National Safety and Quality Health Service (NSQHS) Standards.

We are also guided by our In Safe Hands Program, which incorporates all the practical measures we take day-to-day, both individually and as a team, to ensure the safety of our patients and staff – from hand hygiene, protective equipment and cleaning, to handling patient confidentiality. Please let our reception staff know if you wish to provide feedback about our service – we welcome and appreciate your input.

# CONVENIENTLY LOCATED

Vision Eye Institute Kurralta Park is conveniently located in the Tennyson Centre, close to Adelaide's city centre.

The clinic is accessible to people with limited mobility and those who require mobility aids. There is a wheelchair-accessible entrance and lift, along with accessible restrooms.

Patients can easily access the clinic via public transport or car, and there is free onsite parking at both the front and rear of the building.

## **FULL-SERVICE CLINIC**

Vision Eye Institute Kurralta Park is fully equipped for ophthalmic consultations, diagnostic testing, minor procedures and all types of eye surgery.

Our clinic provides a large range of services, from general eye checks and vision correction to the diagnosis and treatment of complex conditions.

Patients have access to state-of-the-art technology and treatment delivered by highly experienced ophthalmologists. If surgical procedures are required, these are performed at the Tennyson Centre and Windsor Gardens Day Surgery.
